NOTES

1. The Company

Mabion S.A. ("Mabion" or the "Company") was established on May 30, 2007 as a limited liability company with its registered office in Kutno, Poland. The legal form of the Company was changed on October 29, 2009 as a result of the transformation of Mabion's limited liability legal status into a joint-stock company organized under the laws of the Republic of Poland. Mabion is currently entered in the Register of Enterprises of the National Court Register in Poland managed by the Łódź-Śródmieście District Court in Łódź, 20th Commercial Division of the National Court Register, at KRS number 0000340462. The Company was also assigned a tax identification number NIP: 7752561383 and a statistical identification number REGON: 100343056. The Company's registered office is in Konstaktyńów Łódzki, Poland, ul. Gen. Mariana Langiewicza 60.

The Company's shares are listed on the regulated market of the Warsaw Stock Exchange.

2. Basis of preparation

These condensed interim financial statements of Mabion S.A. for the period of nine months ended September 30, 2018 have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting", as adopted by the European Union (IAS 34), and with the IAS 34 as issued by IASB as for the Company there are no differences between IFRS as issued by IASB and as adopted by EU.

These condensed interim financial statements do not include all the information and disclosures required in the annual financial statements prepared in accordance with International Financial Reporting Standards adopted by the European Union ("IFRS") and should be read in conjunction with the Company's annual financial statements as of December 31, 2017.

The accounting policies adopted in the preparation of the condensed interim financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended December 31, 2017, except for the corporate income tax, which has been calculated using expected effective average tax rate.

The new or revised standards and interpretations, effective starting from January 1, 2018, had no impact on these condensed interim financial statements.

New or revised standards and interpretations, which have been issued but are not yet effective and not early adopted by the Company have been presented alongside their estimated impact on the Company in the annual financial statements for the year ended December 31, 2017. There were no new or revised standards and interpretations issued from the date of approval of the Company's annual financial statements for the year ended December 31, 2017 to the date of approval of these condensed interim financial statements, which would have impact on the Company. The Company intends to apply all new and amended IFRS issued but not yet effective as of the date of issuing these condensed interim financial statements at their mandatory effective dates.

Management believes that notes to these condensed interim financial statements contain all material information necessary for proper assessment of the Company's material and financial situation in the reporting period.

The condensed interim financial statements of Mabion S.A. for the nine months ended September 30, 2018 have been prepared on a going concern basis (further information on the going concern assumption is presented in Note 3).

The condensed interim financial statements are prepared on the historical cost basis.

Critical accounting estimates and judgments of the management are presented in Note 5.

These condensed interim financial statements were authorized for issue by the Company's Management Board on November 15, 2018.

3. Going concern assumption

Since inception, the Company has been focused on performing research and development activities in order to develop and market its products commercially. As a result, the Company has incurred losses from operations and has been generating negative operating cash flows which are expected to continue for the foreseeable future.

So far the Company has been financing its operations with cash obtained from shareholder and bank loans, equity raising, government grants and cash obtained from distribution partners.

In accordance with information presented in Note 15, in April 2018 the Company has obtained PLN 174,790 thousand from the private placement of shares.

In management's view with the continuing shareholders' support, both long term investors and local market participants, and the strategic agreements with future distribution partners (see Note 17), the Company will have sufficient funding to complete its primary drug development.

The Company's success is dependent on securing continued funding of its operations as well as being able to register and commercially sell its products.

These condensed interim financial statements have been prepared on a going concern basis which contemplates that the Company will continue in operation for the foreseeable future. Accordingly, no adjustments have been made to the condensed interim financial statements that might be necessary should the entity not continue as a going concern.

4. Significant accounting policies

These condensed interim financial statements have been prepared in accordance with the accounting policies used for the purpose of preparing recent annual financial statements, except for the corporate income tax, which has been calculated based on expected effective annual average tax rate.

The Company's functional currency is the Polish zloty (PLN).

The condensed interim financial statements are presented in thousands of PLN as rounded to full thousands.

New standards and interpretations

In the periods starting on or after January 1, 2018, some new standards, changes in standards and interpretations approved by the European Union enter into force. New or changed IFRS presented below have been applied in these condensed interim financial statements with effect from January 1, 2018:

- a) IFRS 15 – Revenue from Contracts with Customers – obligatory in the financial statements for the periods starting on or after January 1, 2018 with earlier adoption allowed
- b) IFRS 9 - Financial Instruments from November 12, 2009, with the subsequent changes to IFRS 9 and IFRS 7 from December 16, 2011 - obligatory in the financial statements for the periods starting on or after January 1, 2018

The Company analyzed the effects of adoption of the abovementioned new standards and interpretations on these condensed interim financial statements and concluded that they do not have any material impact on these condensed interim financial statements, since they do not have any material impact on financial information presented herein or they do not apply to the transactions that the Company enters into.

New standards announced and adopted by the European Union, not yet effective

The Company intends to adopt the published, but not effective as at the date of publication of these condensed interim financial statements amendments to IFRS, in accordance with their effective date.

The Council of International Accounting Standards issued International Financial Reporting Standard 16 Leases ("IFRS 16") in January 2016 and it replaces IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure.

IFRS 16 is effective for annual periods beginning on or after January 1, 2019. Early application is permitted for entities that use IFRS 15 from or before the first application of IFRS 16. The Company has not decided to IFRS 16 early adoption.

The Company assessed the impact of the application of IFRS 16 on the accounting principles applied by the Company with respect to the Company's operations or its financial results. The Company identified current operating lease agreement not previously recognized as lease which can meet lease definition according to IFRS 16. However, the Company assessed that there will be no material impact of the application of IFRS 16 on future financial statements.

5. Critical accounting estimates and judgements

Management makes estimates, judgements and assumptions regarding the recognition and valuation of the individual items of assets and liabilities. The estimates and the related assumptions are based on historical experience, management's expectations or other factors considered material. The actual results may differ from the recorded estimates. The estimates and the related assumptions require regular verification.

In the period covered by these condensed interim financial statements, no changes in the scope or methodology of making any material estimates and judgements have been made by the Management.

6. Operating segments

Management identified one operating segment for the Company, i.e. research and development activities for new biotechnology drugs and biosimilar drugs through utilizing contemporary genetic engineering. No changes have occurred in this respect since the last annual report.

7. Seasonality of operations

The Company's activities are neither seasonal nor cyclical. In the period of nine months ended on September 30, 2018, the Company has not generated any revenue.

8. Expenses by nature

The following tables present different types of expenses by nature:

	July 1, 2018 – September 30, 2018 (Unaudited)	January 1, 2018 – September 30, 2018 (Unaudited)	July 1, 2017 – September 30, 2017 (Unaudited)	January 1, 2017 – September 30, 2017 (Unaudited)

Personnel expenses	2 571	6 589	1 439	4 481
Depreciation	1 329	3 753	1 301	3 503
Registration fees	-	1 570	-	-
Other expenses	25	79	87	191
Research and development costs by nature	8 309	35 039	9 361	30 759
Office expenses	1 237	3 224	658	2 519
Personnel expenses	1 154	3 890	925	2 894
Depreciation	1 279	3 970	827	2 308
Advisory services in connection with distribution contracts	-	664	277	594
Share based payment expense (IPO incentive)	-	109	-	817
Rental, usage and maintenance of equipment and company car expenses	242	531	297	602
Taxes and fees	146	462	140	363
Audit and other advisory services	179	1 082	120	907
Other operating expenses	187	1 852	1 114	2 051
General and administrative expenses by nature	4 424	15 784	4 358	13 053

Other operating expenses in the period of nine months ended September 30, 2018 include a provision of PLN 75 thousand for underpaid social security charges relating to the period from 2015 to 2017 and an impairment loss of PLN 56 thousand recognized in relation to the inventory of raw materials with expiration date on or before December 31, 2018.

9. Research and development cost

	July 1, 2018 – September 30, 2018 (Unaudited)	January 1, 2018 – September 30, 2018 (Unaudited)	July 1, 2017 – September 30, 2017 (Unaudited)	January 1, 2017 – September 30, 2017 (Unaudited)
PLN thousands				
MabionCD20	8 108	34 365	9 236	30 561
MabionEGFR	189	623	3	4
Other projects	12	51	122	194
Total Research and development costs	8 309	35 039	9 361	30 759

In the period covered by these condensed interim financial statements the only research and development projects that incurred material costs were development of the Company's primary drug, MabionCD20 and development of MabionEGFR, both co-financed from EU funds.

In June 2018, the Company submitted a single marketing-authorization application for MabionCD20 to the European Medicines Agency ("EMA"), which has been approved for further evaluation on June 21, 2018.

10. Other operating income

	July 1, 2018 – September 30, 2018 (Unaudited)	January 1, 2018 – September 30, 2018 (Unaudited)	July 1, 2017 – September 30, 2017 (Unaudited)	January 1, 2017 – September 30, 2017 (Unaudited)
PLN thousands				
Government grants	496	1 520	489	1 456
Other operating income	433	610	47	147
Total other operating income	929	2 130	536	1 603

Government grants income includes also a portion of the deferred income (grant) relating to fixed assets co-financed from EU grants in the past, amounting to PLN 1,464 thousand and PLN 1,456 thousand in the period of 9 months ended September 30, 2018 and September 30, 2017, respectively (See also Note 16), which was recognized in profit or loss proportionally to depreciation of the underlying assets.

Other operating income includes PLN 476 thousand, representing reversal of provisions created in past periods for diminution in value of inventory, relating to inventories, which have been used for training and testing purposes.

11. Finance income and costs

	July 1, 2018 – September 30, 2018 (Unaudited)	January 1, 2018 – September 30, 2018 (Unaudited)	July 1, 2017 – September 30, 2017 (Unaudited)	January 1, 2017 – September 30, 2017 (Unaudited)
PLN thousands				
Interest income	245	657	4	31
Net foreign exchange gains	604	-	419	4 607
Other finance income	-	-	-	-
Total finance income *	849	657	423	4 638
Interest expense	(117)	(1 931)	(488)	(958)
Net foreign exchange losses	-	(1 810)	-	-
Other finance costs	(32)	(510)	17	(71)
Total finance costs *	149	4 251	(471)	(1 029)

* due to method of presenting foreign exchange gains and losses as a net position, sum of first six-month period and third quarter calculated separately for financial income and financial costs may differ from results for the whole nine-month period. The difference stems from recognition of foreign exchange gains and losses net position as financial income in one period and financial cost in the other one

Majority of net foreign exchange losses in the period of nine months ended September 30, 2018 represent unrealized foreign currency exchange gains on translation of refundable prepayments for distribution rights denominated in foreign currencies at the balance sheet date, which are presented in Note 17.

12. Property, plant and equipment

In the period covered by these condensed interim financial statements the Company has invested PLN 6,102 thousand in tangible assets and PLN 508 thousand in intangible assets.

Substantial part of investments in tangible fixed assets in the first nine months of 2018 was financed through lease contracts, which are described in Note 19.

Except for the sale-and-leaseback transaction described (see Note 18), The Company has neither sold nor liquidated any tangible fixed assets in the period covered by these condensed interim financial statements.

The Company has not identified any impairment indicators in relation to property, plant and equipment as of September 30, 2018.

13. Inventory

Increase in value of inventories in first nine months of 2018 is due to purchases of raw materials necessary for production of trial series of MabionCD20 in Konstancinów plant.

The Company has recorded PLN 56 thousand as other expenses to recognize cost of the inventory of raw materials with expiration date on or before December 31, 2018 (see Note 8).

14. Trade and other receivables

	September 30, 2018 (Unaudited)	December 31, 2017
PLN thousand		
VAT receivable	4 540	1 437
Trade receivables	8	8
Advances for materials and services	205	138
Other receivables	344	66
Trade and other receivables	5 097	1 649

15. Equity

On 23 March 2018, in connection with the lapse of one-year period from the date of entry in the entrepreneurs' register of the changes to the Company's statute made by the resolution of the Extraordinary General Meeting No. 5/II/2017 of 16 February 2017, the authorization for the Management Board to increase the Company's share capital within the authorized capital referred to in § 9a of the Company's statute expired.

On March 23, 2018, the Company announced the successful pricing of a private placement by Twiti Investments Limited ("Twiti") (the "Placement") of 1,920,772 existing shares, with gross proceeds of PLN 174,790 thousand (or approximately USD 51.0 million). The shares were sold at a price of PLN 91.00 per share. The Placement included institutional investors specialized in healthcare and life sciences, including investors from the United States, which reinforced and diversified Mabion's shareholder base. The European Bank for Reconstruction and Development ("EBRD") and PFR Life Science sp. ("PFR Life Science"), part of the Polish Development Fund, contributed PLN 61.4 million and PLN 38.3 million, respectively, providing significant cornerstone investments in the Placement. The aggregate proceeds from the sale of shares by Twiti have been immediately lent to the Company pursuant to a loan agreement between Twiti and the Company. The loan from Twiti was initially agreed to be repaid by September 30, 2018 by way of

contractual set-off of mutual claims between: (i) the Company against Twiti for the subscription and payment for the same number of newly issued ordinary bearer shares as the number of shares sold in the Placement, which will be issued by the Company at the same issue price as the price obtained from the sale of shares in the Placement and (ii) Twiti against the Company regarding the repayment of the loan. Eventually, the loan was repaid by the Company in cash on April 23, 2018. The above information was announced in the Company's ad hoc report no. 26/2018. In connection with their investments, Mabion and Twiti have agreed that EBRD in consultation with PFR Life Science, for as long as each firm holds shares that represent more than 1% of the share capital of the Company, will have the right to nominate a candidate to the Mabion Supervisory Board who will meet the independence criteria set forth in the Annex II to the Commission's Recommendation of 15 February 2005 on the role of non-executive or supervisory directors of listed companies and on the committees of the supervisory board.

On April 23, 2018, the Company addressed to Twiti an offer to subscribe to all of 1,920,772 P-series ordinary bearer shares in the private placement according to Article 431 § 2 point 1 of the Companies Code. Twiti accepted an offer to subscribe to P-series shares and on April 23, 2018 the Share Subscription Agreement was concluded, under which Twiti subscribed to 1,920,772 P-series ordinary bearer shares with PLN 0.10 par value per share (total sale price of P-series shares equaled PLN 174.8 million). Twiti paid full price of PLN 174.8 million on the same day. On 30 April 2018 the National Court Register registered the increase in the Company's share capital.

Mabion intends to use the net proceeds from the financing to cover the cost of the expansion of production capacity in Konstanyń Łódzki, Poland and costs and expenses related to the development and commercialization of Mabion CD20.

In connection with the postponed IPO outside of Poland, the Company incurred costs of legal advisory in the amount of PLN 2,918 thousand, which have been recognized in the Company's statement of comprehensive income in 2017 and in the first nine months of 2018 in full.

The Company has accounted for transaction costs relating to the issue of P-series shares of PLN 10,337 thousand (comprising costs of legal advisory and other professional advisors) to reduce the reserve capital created from the share premium (surplus of the issue price over the par value of shares).

On June 28, 2018 the General Meeting of Shareholders ("GSM") authorized the Management Board to issue up to 125,000 of A series and B series subscription warrants without the pre-emptive rights for existing shareholders, entitling eligible employees to purchase up to 114,000 of R-series shares and up to 11,000 of S-series shares in the Company. The sales price for new shares will be PLN 91 and PLN 0.1 in the case of R-series shares and S-series, respectively. Conversion of warrants into shares will be possible after meeting the conditions precedent, which will be set in the rules, which must be approved by the Company's Supervisory Board. Alternatively, the warrants may be purchased by the Company in exchange for cash in order to be redeemed. As of the date of these condensed interim financial statements, no such rules have been approved yet. The Company analysed the potential impact of the GSM resolution on these condensed interim financial statements and decided not to recognize any effects since they were assessed as not having any material impact on either the Company's results or its financial position.

16. Deferred Income

The Company has historically financed a portion of its operations through receipt of cash subsidies from The European Regional Development Fund as administered by government institutions in Poland: The Lodz Agency of Regional Development (ŁARR), The Polish Agency for Enterprise Development (PARP) and The National Centre for Research and Development (NCBiR). There have been three projects to finance research and development and/or implementation of MabionCD20, technology of producing human analog insulin ("double cutting") and MabionHER2.

The fixed assets in relation to which the grant was obtained became available for use in 2015 at which point the depreciation of these assets also began; the respective portion of the deferred income (grant) was also recognized in profit or loss as well (PLN 1,464 thousand and PLN 1,456 thousand in the period of nine months ended September 30, 2018 and September 30, 2017, respectively. See Note 10).

In the period covered by these condensed interim financial statements the Company received grant funds to re-finance expenses incurred in two projects co-financed from EU funds in the total amount of PLN 4,900 thousand and returned PLN 228 thousand due to the inappropriate classification of certain expenses identified during audits. Amount of grants received has been accounted for as deferred income due to conditions in the grant agreement, which are not fully under the Company's control and which may result in return of grants received, if not met.

Current portion of deferred income represents this portion of deferred income, which is reasonably expected to be realized within 12 months from the balance sheet. It consists of two major positions:

- a) portion of grants described above, received to finance the tangible fixed assets purchases, which will be recognized as income alongside the depreciation of underlying assets;
- b) prepayment from Celon Pharma S.A. for services related to the development of a drug production process or drug prototypes for use by Celon Pharma S.A., which will be performed by the Company;

This portion of milestone payments received from Mylan equal to PLN 14,007 thousand, which is no longer refundable according to the terms of the agreement with Mylan, which will be recognized as income after receiving by Mabion marketing authorization for MabionCD20, is recognized as non-current deferred income as of September 30, 2018

17. Refundable prepayments for distribution rights

The table below presents the list of prepayments for distribution rights received from partners, which Mabion signed distribution agreements with:

PLN thousands	September 30, 2018 (Unaudited)	December 31, 2017
	Mylan	41 348
FARMAK	1 068	1 043
ONKO	470	459
Sothema Laboratories	98	96
Lyfis	26	25
Total	43 010	36 435

Change in value of the refundable prepayments for distribution rights in the first nine months of 2018 equal to PLN 6,575 thousand is due to:

- changes in foreign exchange rates, since all of these prepayments were denominated in foreign currencies (EUR or USD in the case of Mylan);
- fulfilment of conditions to receive new milestone payment of USD 5 million from Mylan;
- reclassification of PLN 14,007 thousand of milestones received from Mylan from refundable prepayments to deferred income, according to the terms of the agreement with Mylan.

As stated in the annual financial statements for the year ended December 31, 2017, these liabilities are payable on demand and are classified as current liabilities. In the current interim period, there were no changes in the terms of these distribution agreements.

18. Borrowings

a) Bank borrowings

On January 15, March 15 and March 28, 2018 the Company utilized the ninth, seventh and eighth tranche of the loan received from Bank Zachodni WBK, amounting to PLN 5,000 thousand, PLN 2,500 thousand and PLN 7,500 thousand, respectively. As a result, the whole credit limit of PLN 75 million has been utilized by the Company.

This loan has been repaid in full on May 11, 2018, from the proceeds from sale of P-series shares.

On July 17, 2018 the Company and Bank Zachodni WBK S.A. ("the Bank") signed a revolving credit ("the Loan") agreement to finance operating activities of the Company in the period of two years from the day of signing the agreement. The amount of the Loan granted equals PLN 30 million. Disbursement of up to PLN 15 million PLN will be possible after fulfilment of certain formal and legal requirements, as well as establishment of collateral. Disbursement of further PLN 15 million will be possible after the Company received a positive decision of the European Medicines Agency concerning marketing authorization for MabionCD20 drug. The Loan bears interest at a variable rate, based on the WIBOR 1M rate increased by the Bank's margin, which is set at market terms. The Loan requires collateral, including a contractual mortgage (entered as item one in the land and mortgage register) up to PLN 45 million on the title to the real property in Konstancin-Jeziorna along with assignment of the amounts due under the insurance policy, the Company's declaration of submission to enforcement by a notarial deed pursuant to art. 777 § 1 point 5 of the Civil Procedure Code each time up to 150% of the Loan amount, as well as surety and other forms of protection provided by major shareholders of the Company. The agreement contains numerous obligations of the Company towards the Bank and covenants, which may result in termination of the agreement by the Bank, if not satisfied. All condition relating to collateral have been fulfilled in the period prescribed in the Loan agreement. As of September 30, 2018, the Company has not drawn any amount out of this Loan.

b) Borrowings from shareholders

The Company sourced funding for its ongoing operations through several loans received between January 5, 2018 and March 9, 2018 from its shareholders and related parties. Mr. Artur Chabowski (President of the Management Board), Mr. Robert Aleksandrowicz (Chairman of the Supervisory Board) and Glatton Sp. z o.o. (controlled by Mr. Maciej Wieczorek, Chairman of the Supervisory Board) have lent to the Company PLN 200 thousand, PLN 1,500 thousand and PLN 1,000 thousand, respectively. The above-mentioned loans were repaid in full before their respective maturity dates and before the September 30, 2018. All loans carried an interest rate of WIBOR 3M plus 2.0 p.p. Total amount borrowed was PLN 2,700 thousand.

On March 27, 2018, the Company received a loan of PLN 174,790 thousand from Twiti Investments Limited, a company controlled in 50% by Mr. Robert Aleksandrowicz, Chairman of the Supervisory Board at that time. The loan was to be repaid by September 30, 2018 and carried an interest rate of WIBOR 1M plus 3.0 p.p. The Company paid also fees and expenses of the lender relating to loan. Loan from Twiti was repaid on April 23, 2018 together with accrued interest.

No collateral was required to secure the borrowings from shareholders.

c) Sale-and-leaseback transactions

The Company is a party to several sale-and-leaseback transactions to re-finance purchases of laboratory equipment. These transactions are treated as borrowings since the underlying assets have been initially paid in full and lease agreements contain an irrevocable offer to buy back the assets at the maturity. These agreements have maturity between 3 and 4 years and are secured by blank promissory notes. These notes promise in writing that the Company will pay to the owner of the note all amounts due but not paid under the respective leasing agreement, including lease instalments, compensation, contractual penalties and expenses together with interest, in case the Company would be in arrears with payments of any of the above-mentioned amounts.

In the first nine months of 2018, the Company has entered only one sale-and-leaseback transaction with Idea Geting Leasing S.A. to re-finance purchase of laboratory equipment worth PLN 366 thousand, concluded on August 3, 2018.

d) Other borrowings

In January 2018 and June 2018, the Company used two loans granted by Idea Getin Leasing S.A. in the amount of PLN 208 thousand and PLN 93 thousand, to pay for hardware, which will be used by the Company in connection with new IT systems being currently implemented in the Company. Both loans are granted for 2-year period and are secured by blank promissory notes, pledges and registered pledges on assets financed from loans. The notes promise in writing that the Company will pay to the owner of the notes all amounts due but not paid under these loan agreements, in case the Company would be in arrears with payments of any of the above-mentioned amounts. As of September 30, 2018, total outstanding amount of loans granted by Idea Getin Leasing is PLN 193 thousand.

19. Leases

a) Operating lease

The Company leases office space in Łódź under an operating lease expiring on October 30, 2020 with an option to cancel in 2018 without an early termination penalty. Total future minimum lease payments under the lease as of September 30, 2018 amount to PLN 150 thousand in 2018 and PLN 600 thousand in 2019. The lease expense recognized in the first nine months of 2018 amounted to PLN 529 thousand.

The lease includes contractual escalation clauses providing for annual rent increases starting January 1, 2016 based on the consumer price index. Rent indexing is not expected to have a material effect on the Company's commitments.

The Company intends to close the lease at the end of 2019 and concentrate all operations in its own facilities in Konstaktyńów Łódzki, therefore, the Management made a decision to accelerate depreciation of all leasehold improvements relating to office space in Łódź starting from January 1, 2018. Impact of this change on these condensed interim financial statements equals to PLN 619 thousand and is included in depreciation in general and administrative expenses (see Note 8).

b) Finance lease

The Company uses vehicles and laboratory equipment pursuant to finance lease agreements.

The Company concludes leasing agreements for a period of 3 to 5 years. These agreements are secured by blank promissory notes. These notes promise in writing that the Company will pay to the owner of the note all amounts due but not paid under the respective leasing agreement, including lease instalments, compensation, contractual penalties and expenses together with interest, in case the Company would be in arrears with payments of any of the above-mentioned amounts.

Change in the interest rate constituting an element of calculation of leasing instalments is a parameter which results in change in leasing instalments. All leasing agreements contain option to purchase leased assets at the end of the lease period.

In the current interim period, the Company has entered into the few new lease agreements resulting in the initial recognition of the fixed assets in the amount of PLN 1,054 thousand and the lease liability of PLN 1,054 thousand.

Total cost of assets subject to finance lease as of September 30, 2018 and December 31, 2017 amounts to PLN 7,034 thousand and PLN 5,980 thousand, respectively. The table below presents minimum lease payments and current value of lease payments as of September 30, 2018 and December 31, 2017.

<i>PLN thousands</i>	Minimum lease payments as of September 30, 2018 (Unaudited)	Current value of lease payments as of September 30, 2018 (Unaudited)	Minimum lease payments as of December 31, 2017	Current value of lease payments as of December 31, 2017
Within 1 year	1 320	1 155	982	955
From 1 to 5 years	2 837	1 996	2 536	2 308
Total	4 157	3 151	3 518	3 263

20. Trade and other payables

<i>PLN thousands</i>	September 30, 2018 (Unaudited)	December 31, 2017
Trade payables	12 142	14 005
Accrued expenses for clinical trials	176	2 123
Share-based payments (Note 24)	-	670
Social security and personal income tax on salaries	876	677
Accrued expenses for unused holidays	435	344
Payroll	857	609
Other payables	238	67
Total trade and other payables	14 724	18 495

Other payables as of September 2018 include a provision of PLN 75 thousand for underpaid social security charges relating to the period from 2015 to 2017, which was due to errors in calculations of basis for calculation of the social security contributions, which the Company informed of in the condensed interim financial statement for six months ended on June 30, 2018. All outstanding social security contributions were paid on October 10, 2018.

21. Effective income tax rate

In the period covered by these condensed interim financial statements the Company has not recorded any profits, which would result in the obligation to pay the corporate income tax, and the criteria to recognize deferred tax asset were not met, thus the effective corporate income tax rate was equal to 0%.

As of September 30, 2018, the Company operated under three permits issued by the Łódź Special Economic Zone ("ŁSSE"), located in Poland. There were no significant changes in 2018 in respect of the amounts and conditions of utilizing the tax credits available to the Company, i.e. tax credits will be available by December 31, 2026 to offset against future corporate income tax profits.

In the period covered by these condensed interim financial statements the Company has not met the criteria to recognize deferred tax asset.

The tax losses carried forward from previous years are disclosed in the financial statements for the year ended December 31, 2017.

22. Financial risk management

The Company's exposure to individual risks relating to financial instruments only, as well as the objectives, policy and processes used to measure and manage the risk have not changed substantially compared with the annual financial statements.

23. Fair value of financial instruments measured at amortized cost

The Company does not have any financial instruments measured at fair value. For the purpose of the disclosure of the fair values in relation to the financial instruments measured at amortized cost, the Company has used the method based on the discounted cash flow.

The main items of financial instruments measured at amortized cost are: short-term bank borrowings and refundable prepayments for distribution rights. The Company's management assessed that the fair value of these items approximates or equals their carrying values.

24. Related party transactions

There is no direct controlling party or ultimate controlling party for the Company.

In the period covered by these condensed interim financial statements the Company has not recorded neither sales to nor purchases from the related parties on conditions other than arm's length terms.

Services contracted previously with Celon Pharma S.A. related to the development of a drug production process or drug prototypes for use by Celon Pharma S.A. has been deferred by mutual consent into future periods due to extraordinary workload relating to completion of research and development of MabionCD20. More information is presented in Note 16.

The Company sourced funding for its ongoing operations from four of its shareholders and related parties: Twiti Investments Ltd. and Glatton Sp. z o.o., Mr. Artur Chabowski and Mr. Robert Aleksandrowicz. Details of these transactions are presented in Note 18.

Key management compensation (incl. share-based payment and remuneration)

On December 14, 2015, the Supervisory Board granted an IPO incentive to Mr. Artur Chabowski, its current Chief Executive Officer. The incentive provides an award to the CEO in the amount of 0.4% of the total value of each future share issuance outside of Poland. The incentive vests at the share issuance date and is to be settled in cash. On March 31, 2017, the Supervisory Board amended the terms of the cash settled share-based payment award granted to its current Chief Executive Officer. The award was increased by 1% for each 1 PLN of the shares sales price above 100 PLN per share (for example, if the price per share is 110 PLN, the incentive award amounts to 0.44% of the total IPO value). Other terms remain unchanged.

On January 24, 2017, the Supervisory Board granted an IPO incentive to Sławomir Jaros, member of the Management Board. The incentive provides an award in the amount of 0.075% of the total value of each future IPO outside of Poland.

The above-mentioned incentives were accounted for as a cash-settled share-based payment liability and is being recognized over the vesting period from the date of grant (which is the same as the service commencement date) to the expected IPO date. The amendment made on March 31, 2017 to the terms of the award of Mr. Artur Chabowski was accounted for as modification i.e. incremental fair value of the additional award is spread over the vesting period of this additional award – from July 1, 2017 to the expected IPO date.

The expected date of IPO outside of Poland is now postponed, subject to new shareholders' approval, whereas in previous periods the Company assumed that the IPO would be finalized by October 31, 2017. This change of assumptions was mainly due to successful private placement of P-series shares, which resulted in capital injection of PLN 174.8 million in April 2018 from the sales of 1,920,772 P-series shares at the price per share equal to PLN 91.00. Details of this transaction are presented in Note 15. Additionally, on March 23, 2018 the authorization for the Management Board to increase the Company's share capital within the authorized capital referred to in § 9a of the Company's statute expired. As a result, the Management decided not to recognize any share-based payment liability as of September 30, 2018.

On May 23, 2018 the Company's Supervisory Board granted to Mr. Artur Chabowski and Mr. Sławomir Jaros awards in connection with placement of P-series shares in the same amount as it was provided for in case of IPO outside of Poland. The awards totaling PLN 779 thousand have been paid in June 2018, out of which amount PLN 109 thousand was accounted for as cost of 2018 and remaining PLN 670 thousand was accounted for against provisions made in previous periods.

Presented below is the compensation for members of the Company's key management personnel and the Supervisory Board:

<i>PLN thousands</i>	January 1, 2018 – September 30, 2018 (Unaudited)	January 1, 2017 – September 30, 2017 (Unaudited)
Remuneration of the Supervisory Board Members	217	129
Remuneration of the Management Board Members	924	774
Share-based payments made	109	-
Total short-term compensation	1 250	903
Share-based payments costs accrued	-	806
Total compensation of key management personnel and the Supervisory Board	1 250	1 709

25. Contractual commitments

As of September 30, 2018, the Company did not have any contractual commitments for the acquisition of property, plant and equipment, intangible assets or development work.

26. Contingent liabilities

The Company was not a party to any litigation, regulatory actions or arbitration which is expected by management to have a material adverse effect on the Company's financial position or operations and/or cash flow.

27. Events after the balance sheet date

On October 17, 2018, the last remaining collateral to the Loan agreement concluded on July 17, 2018 with Bank Zachodni WBK S.A was delivered by the Company.

On October 26, 2018 the Company submitted to the Patent Office of the Republic of Poland second European patent application in the use of MabionCD20 in treating patients with multiple sclerosis MS, which represents an innovative indication for the molecule. This application concerns MabionCD20 application on a monotherapy basis.

On October 31, 2018, the Company submitted to the lessor a notice of termination of the lease of offices at 17 Fabryczna St. in Łódź as of November 1, 2018, with six-month termination period. In the notice the Company expressed interest in extension of the termination period until December 31, 2019.
